## Nakar Hotel Palma – Spotlight

*By Ross Fraser · On July 26, 2016*

Mallorca has long been favoured as the European holiday option of choice, with spectacular bays, coves and beautiful towns in the west, it is easy to see why. However the **capital Palma** is a cultural hub in its own right.

Among the buzz of the city centre the newly opened Nakar Hotel part of the Design Hotel group offers a serene retreat, with light-soaked lounges, spa, and a spectacular rooftop infinity pool.

The Nakar is the brainchild of Toni Ramis who commissioned a team of local designers and architects to create his vision of an authentic and innovative guesthouse.

Guestroom and suite aesthetics are defined by earthy tones and fabrics in neutral colour palettes. Rooms are finished with state of the art sound systems including Apple TV which are Netflix and Spotify enabled. Our favourite device the Nespresso machines are present in every room and spaction bathrooms with Molton Brown amenities finish off the experience.

The upper floor sundeck and pool is exclusively for residents during the daytime hours. However, sundowners come with an open invitation to the neighborhood, transforming the terrace into one of the city's hottest haunts for guests and locals alike. With panoramic views over the gargoye-studded architecture of the city's old town, the infinity pool provides the ideal setting in which to soak up the ambrosial musical stylings of renowned DJ Toni Jimenez at one of his weekly sets.

Located in Palma's main shopping district you are moments from designer boutiques and galleries, while the beaches of Ciudad Jardín and Can Pastilla are only a 15-minute walk away.
