

## Nakar Hotel

On the ninth floor of the fairly new **Nakar Hotel** you will find the hotel's rooftop terrace with a **small bar and stunning pool** that offer great views of the sea and harbour, the cathedral, Bellver Castle, and the rest of the city. However, this area is exclusively reserved for hotel guests during the day so they can enjoy their little oasis of peace in the bustling city. In the late afternoon and after sunset until midnight, this rooftop terrace turns into **the perfect place to relax with a drink marvelling at the beautiful capital** of the island.
